AMSEA SUPERIOR SIRE TOP 50 REPORT |

REPORT #29 | 2023

'Greendale Merinos - home of the highest-ranking genetics in Australia'

The MERINO SUPERIOR SIRES REPORT #29,

Has definitely provided some exciting and insightful results that solidify Greendale Merinos at the forefront of the merino industry for genetic production and proven performance.

Greendale Merinos currently has the highest-ranking cohort of sires in the country.

The recent **MSS29 Superior Sire Top 50 Report** saw Greendale rams, 190435 and 200734 rank as #1 and #2 (respectively) in the Top 50 FP+ sires and as #2 and #7 (respectively) for the Top 50 MP+ sires (which compared over 430 sires entered in national sire evaluations from 2018-2022. (pages 5-7).

In the **ALL TIME TOP 50 SIRES REPORT (1989-2022)** (pages 6-8) Greendale sires 190435 ranked #1, 200734 #2, 150018 #5 and 120012 #18 for FP+, with sires 190435 ranked #3, 150018 #8 and 200734 #9 for MP+.

A recognisable difference for Greendale genetics is the retention of profitable productivity all through the animal's life. Currently in our annual ewe shearing **all ewes cut 7.3kg on average at 17.2 microns, after rearing 102% lambs in the 2022 season.**

Our business is **completely commercially focused** aiming to produce the most efficient, productive, and profitable Merino under realistic, commercial **paddock** conditions. Our focus is return per hectare on the most commercially viable traits of a merino wool producing enterprise.

This report highlights the recent performances and industry status of our highest performing sires and shows the current Greendale sire evaluation entries. (pages 9-10).

The 2024 Greendale Superior Semen Sire Catalogue is out now with more information provided on these industry leading Sires. **All sires listed have an independent visual score and structural evaluation conducted by highly experienced sheep classer, Allan Casey.**

For full visual scores, evaluations and videos of semen sires please contact greendalemerinos2@outlook.com

We look forward to working with you in 2024.

Kind Regards,
Alan and Miranda McGufficke

Current Sire Evaluation Entries

Greendale currently have sires **200734** and **210210** entered into the New England Merino Sire Evaluation hosted at the Swales family property 'Woodland', east of Armidale. Results from the 2022 drop have shown that 200734 was the **finest sire** in the 2022 drop at **13.9 microns**, (average of the group being **15**) and cut the average for GFW and CFW. We look forward to seeing more results from the 2022 Drop and are excited to see the 2023 drop which will include Greendale 210210. This is an exciting young sire that has figures well in the **Top 1% and 5%**, is a **double PP** and will have a profound impact on our business and that of our clients. **210210** is already showing promise, being used in 3 other genetic flocks and with his progeny at Greendale looking fantastic at marking recently.

What an exciting year 2024 will be for our genetic progress.

Sire Enquiries are always welcome; our 2024 Sire team will be selected in December and our Superior Sire list will be available early 2024.
